‘Plastic Minimalism Project for a Green Campus’

10th August,2024 to 30th April, 2025

The Nature Club is proud to announce the ‘**Plastic Minimalism Project for a Green Campus**’ a week-long initiative aimed at reducing plastic waste and promoting environmental responsibility within our college community. This project aligns perfectly with our college's commitment to sustainability and can serve as a model for other institutions.

The Goal: To significantly reduce single-use plastic consumption on campus.

Your Role in Making a Difference:

Ditch Single-Use Plastics: Opt for reusable alternatives such as high-density polyethylene (HDPE) water bottles, steel/copper bottles, reusable cups and plates, cloth napkins, and wooden/bamboo cutlery.

Embrace Responsible Packaging: Choose recycled packaging whenever possible, and replace plastic bags with cotton or jute bags.

If you accidentally forget to follow the rules, participate in our "**Campus Clean-up Challenge.**" Bring reusable bags and distribute it around the TRCAC campus, take a geotag picture, and send it to any Nature Club member.

By working together, we can make a significant impact on our campus environment and create a lasting model for sustainability.

Reenuy.
